

PAUSE MC

Put simply, pausemc is remarkable. One might be hard-pressed find many artists who rap with the style and finesse that he does, sing with such soul and passion, produce a variety of genres, play multiple instruments, engineer, write/direct/edit film/videos... the list is seemingly endless for what this extraordinarily talented individual can do.

It's been a busy year or so, for pausemc, as leading up to the release of his newest single, "Call on Me" he managed to find time to do two national tours and two album releases. Both albums have received an overwhelming amount of support from college radio stations around the country with heavy rotation at 120+ stations.

Both of the aforementioned albums charted in the top ten of CMJ's Hip Hop Chart ("No Small Order" peak: #10, "Blue": #3) and ranked as high as #4 on Canada's !Earshot chart. Other career-notables include song placements in video game Saints Row IV, an assortment of TV stations (NBC, CBS, Showtime, ESPN, Oxygen), movies ("The To-Do List", "King Jack"), and countless overseas advertisements and web-television series.
